WE’RE MAKING PROGRESS

We still need additional support to reach our goals by end of 2017

➢ Seeking expert POC’s for veteran admissions to 5 top universities

➢ Verified 2 strong certification programs
  ▪ Seeking 3 more by end of year

➢ Identified Federal and State Apprenticeship programs
  ▪ Seeking additional guidance and resources

➢ Established government program partnerships
  ▪ Seeking volunteers to “map” application processes

➢ Seeking volunteer assistance to verify the quality and authenticity of dozens of veteran-focused non-profit organizations

EDUCATION AT EVERY LEVEL
CASE STUDY: JODI-ANN ALLEN

Jodi-Ann spent nearly 10 years in the Navy and left the military with experience as an electrician in the Navy “Seabees” combat engineering unit. She completed a degree in Electrical Engineering from Kennesaw State University and started a career with UPS through introductions created through Vetlanta and FourBlock.

CASE STUDY: ALEX KERNAN

After a distinguished career as a US Army Ranger, Alex began pursuing his degree in Nuclear Engineering from Georgia Tech. He and his fellow Army Ranger, also in the nuclear engineering program partnered to form 5-Minute Nuclear, a non-profit organization focused on helping grow knowledge and interest in sustainable nuclear energy.
VETERAN PERSPECTIVES

Benefits of Education to Veterans:
To be successful in your career and in life:
1. Make a personal mission plan
2. Learn and be what is required
3. See it through to the end

• **Education sets you apart.** Few will have the combined work experience AND education, though many will have more of one or the other

• **Education helps make sure that your skills are translated** in a way that are universally understood

• **Use the veteran community** to help make a plan and evolve it over time.

• **Education is a tool** to achieve the mission.
  Think of education like any other equipment you used in the field.

EDUCATION AT EVERY LEVEL
VETERAN PERSPECTIVES

Benefits of Education to Veterans:
No one will plan your mission for you!

• It is up to the veteran to educate themselves!

• Education is ongoing; you have to keep yourself relevant.
  • Your corporate career will require as much or more effort than your military career.

• Education has many forms: College, Internships, “Boot Camps”, Mentors, Etc.
  • You must decide what education you require.

• This will NOT be easy, but, Education connects you with people who can guide you.

Good Luck!
